FEATURES & BENEFITS

PRODUCTION / INSTALLATION FEATURES

- Mount with screws through the clip profiles into a blocking or a pocket.
- The L clip is an ideal solution to use with suspended ceilings.

FUNCTIONAL BENEFITS

- Clip profiles can eliminate the need for a full pocket extrusion in drywall pocket or “no pocket” pocket applications where shade unit is recessed in ceiling.
- Cost saving pocket solution with minimal aluminum achieving square resit.
- They work with existing closure panels.
- The L clips are a smart solution to use with suspended ceilings.

AESTHETIC FEATURES

- L clip features extra lip to conceal unsightly cuts.
- I clip is a slimline solution to use as a closure.
