

# SS38

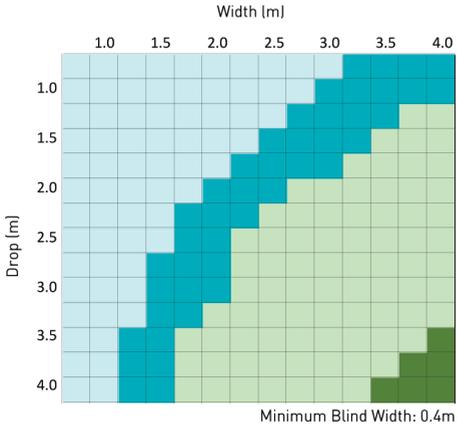

ROMAN SHADES

- Rollease Acmeda's chain controlled SS38 roman shades offer a range of assembly, installation and operation benefits in a contemporary slimline aluminium profile
- Choose from either a direct drive control for faster operation or planetary drive for reduced lifting effort
- The innovative slim cord spool uses a 1mm cord for improved aesthetics on sheer romans as well as integrated fixing clamps for quick assembly. The slim spool also boasts a simple method for cord replacement
- Mounting clips for SS38 are unobtrusive with the added advantage of a quick-release spring loaded option
- Optional spline or hook and loop tape for fabric attachment
