IMPROVEMENTS / CHANGES

FUNCTIONAL IMPROVEMENTS / CHANGES

- The switches have been updated with a user lock feature, that when activated, stops users from inadvertently adjusting limits.
- The included Programming Instructions have been updated to reflect this change.
- All new switches now have a date code stamped on them.
- The GS1-128 bar code on the product will be used to identify the switch's Date code.
- All date codes from 2017-02-01 onward will have the new locking feature
