FULL RANGE OF AVAILABLE SIZES

FRS80
(3")

FRS100
(4")

FRS120
(5")

The Valance is attached with a snap-lock function securing it in place; only allowing removal from the top avoiding the possibility of accidental dislodgment. The Valance can additionally be attached as a rear cover on inside/reveal mounts.

Mounting has the options of colour coded end side covers that fit directly over all standard installation brackets; Centre support brackets which can be used with or without the end side covers and a mounting rail with its own spring loaded installation brackets.

Finally, with its simple design and softened edges it can be presented in one of its many standard colours or covered with all types of fabrics via its unique spline system that removes the requirement of unsightly channels and therefore covering the entire visible surface.
