TG300 COMPACT /

MEASURES, CUTS, PUNCHES & CREASES

VERTICAL BLIND SLATS

The TG300 Compact is a high speed automated vertical blind machine, with an average production speed of up to 1000 slats per hour.

Requiring minimal input and floor space, the TG300 Compact features three convenient pre-programmed settings; standard production, sloped blinds & sample books.

Completed slats are hung on a pneumatic lifting device allowing for easy collection while the machine processes the next blind.

An optional TS50 Compact Welder, for welding the top and bottom pockets, can be purchased as the perfect accompaniment to the TG300.
