INSTALLATION

STEP 1 - SECURE TOP FIX BRACKETS EVERY 1000 - 1200MM

BACK →   ← **BACK**

1,000mm - 1,200mm

FRONT →   ← **FRONT**
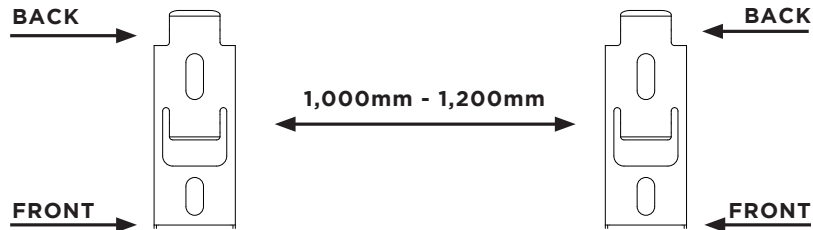

### STEP 2 - INSTALL CU40 OR CU41 PANEL GLIDE SYSTEM INTO BRACKETS AS SHOWN BELOW.
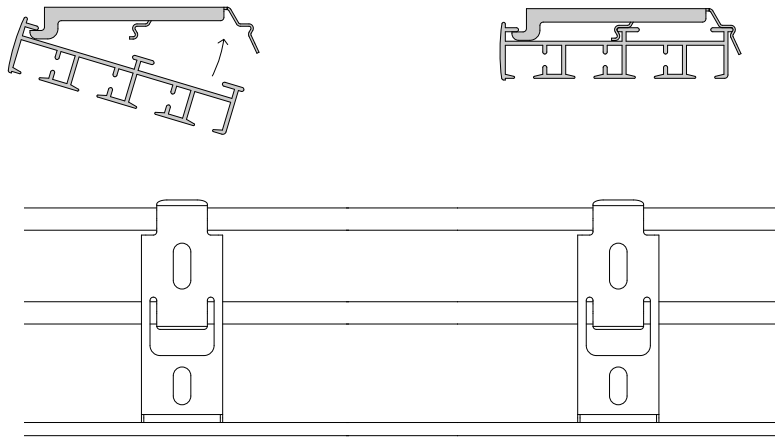

STEP 3 - ATTACH FABRIC TO PANEL BARS.

Insert the fabric as detailed below using a 9mm Flat Spline attached to the Fabric and slide along Panel Bar. Once the Fabric has been inserted into position replace the end cap and fasten end cap screw.

D30 Bottomrail (Optional)

27mm ← Panel Bar Front Face

29mm ← D30 Front Face
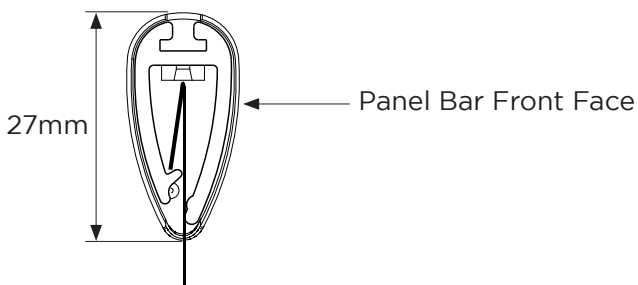

The Panel Bar & Bottomrail both use 9mm flat spline to attach fabric.
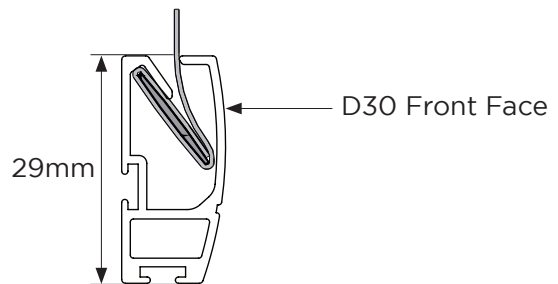

The D30 Bottomrail uses 15mm flat spline to attach fabric.
