

Metal Chain Certification

Metal Chain Certification

Rollese Acmeda metal chains are now provided with a certificate, assuring customers that they are guaranteed for use with Rollese Acmeda Chain Operated Systems. All mechanisms have been especially designed to work with our specified ball chain diameter and pitch.

We ensure, together with our system components and certified metal chains, we are providing the best possible operation for chain controlled blinds.

Each certified roll or bag of pre-looped metal chain can be identified as follows;
