

VERTICAL WAND CONTROL SYSTEM

Our slimline Vertical shading system offers a sleek solution for a traditional favourite, featuring one way stack and tilt operation via a wand.

FEATURES/BENEFITS

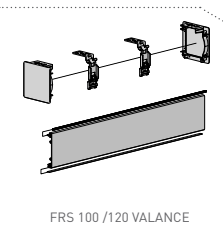

- Operates as a standard left or right hand configuration.
- Slimline end cap available in a range of colours to suit headrail.
- Smooth operation.
- Ideal system for covering sliding doors, large or angled windows.
- Wand operation accomodates for easy and frequent access to sliding doors.
