

VERTICAL SLAT WELDER

TS50 COMPACT /
FOR TOP & BOTTOM WELDING OF VERTICAL BLIND SLATS

The TS50 Compact Welder welds the top and bottom pockets of vertical louvers simultaneously. It serves as the perfect accompaniment to the TG300 and requires very little bench space.

The control panel of the TS50 allows for independent adjustments of the pressure thermo sealing process, including heat intensity as well as sealing and cooling times. This will ensure you can tailor your weld to suit different fabric characteristics.

FEATURES

- Compact space saving unit.
- Counter device to keep track seals produced.
- Temperature and sealing time can be easily adjusted through control panel.
- Performs top and bottom welds, simultaneously.

TECHNICAL SPECIFICATIONS

ELECTRIC SUPPLY	240V - 50/60 Hz
ELECTRIC CONSUMPTION	1 Kw/h
AIR SUPPLY	6 Bar
AVERAGE AIR CONSUMPTION	10 l/min

DIMENSIONS & WEIGHT

LENGTH	480 mm
HEIGHT	550 mm
WIDTH	450 mm
WEIGHT	58 Kg
