

16th December 2021

Price Increase – Aluminium and Hardware

Dear Valued Customer,

Rollease Acmeda has had a long-term commitment to limiting price increases whenever possible, and despite incurring significant increases in raw material costs, particularly over the last 18 months, we have maintained this commitment since our last comprehensive increase in July 2018.

With raw materials, labour and logistics continuing to increase dramatically, we need to confirm the following price increases, effective from 1st February, 2022:

All Aluminium and Hardware Products in the Australian Catalogue will increase by 9%.

Piuma, Klip, Stein and Kumo Folding Arm Awnings will increase by 12%

Feng Folding Arm Awning and Frame Roofing System will increase by 5%.

This new pricing will apply to **all dispatches and invoicing** from and including Tuesday 1st February 2022.

Please note: Automate Motors, Controllers and associated accessories will not increase in price.

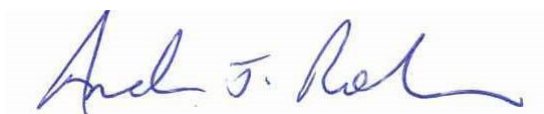

Please be aware that Rollease Acmeda continually works to keep costs to a minimum, and proactively maintains cost reduction programmes as part of its normal course of business. Dramatic and sustained movements in raw material costs are, unfortunately, beyond our control.

Additionally, to support all customers, we are unable to accommodate any bulk purchasing prior to Feb 1st.

Updated electronic catalogues will be available from Tuesday 1st February 2022 and will supersede all previous price lists. To request a copy of any of the updated February 2022 price lists, please contact your Regional Sales Manager or our Customer Service team on (03) 9355-0100 or via email at custvc@rolleaseacmeda.com

We take this opportunity to thank you for your understanding and ongoing support, and we look forward to continuing our work together in the future.

Yours Sincerely,

Andrew Robson
National Sales Manager.
