DUAL SHADES REINVENTED

Experience innovative design by independently
controlling **two shades, with one chain**

ROLLEASE
ACMEDA
PRECISION IN MOTION

ADVANCED ENGINEERED DESIGN

This functional system has reinvented dual shades to be a stylish, sophisticated system that seamlessly integrates into any setting. It's time to forget what you know about dual shades. **The only one of its kind.**

UNIQUE DUAL CASSETTE 100mm x 135mm

The contemporary aluminium cassette neatly houses two shades, concealing components and maintaining a neat over-all look. The cassette is completed with colour-matched covers and slimline mounting clips for a seamless finish and minimal light gap. 'Anti-rattle' design features provide quiet operation for a pleasant user experience.

AUTO-RISE

Aero is a ground-breaking roller shade series that boasts an 'Auto-rise' feature with built-in decelerator, self-rising with a light pull of the hem bar or chain in one system (or hem bar only for Chain free configuration). The shades will automatically stop at your pre-set desired position. The Chain system allows for weight bar override for control at any time.
ONE CHAIN TWO SHADES

Innovative design provides a minimal look requiring only one chain for the system. Thanks to the intricately designed mechanisms you can independently control two shades with one chain to lower or raise either shade.
- Life Cycle tested to ensure product longevity. Qualified through strict internal design process.

- Universal boosters for either left or right-handed controls for reduced inventory.

- Built-in decelerator for a smooth and controlled ascent.

- Top and bottom limit setting for simplified installation and refined user experience. Easily set limits with the press of a button.

- Simple maintenance of tension settings.

SPECIFICATIONS

## AERO DUAL CONFIGURATIONS, CAPACITY & DIMENSIONS

AERO DUAL CHAIN

AERO DUAL CHAIN FREE

103mm
(4.06")

135mm
(5.31")

up to 3m widths (10ft)

up to 3m drop (10ft)

AERO SINGLE SHADE CONFIGURATION

AERO SINGLE CHAIN

AERO SINGLE CHAIN FREE

Aero Single adopts all the functional features of the Dual; auto-rise, chain or weight bar control, and a smooth built-in decelerator. This single shade can be enhanced with our sleek CF90 cassette, a stylish single shade cassette to match the dual shade cassette, bringing consistency across the range.
