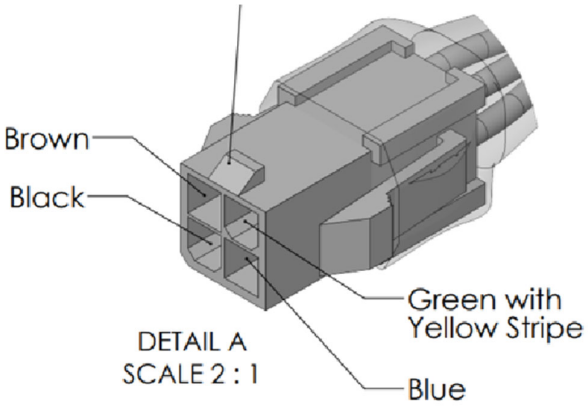
FEATURES & BENEFITS

PRODUCTION / INSTALLATION FEATURES

- Both new products are to complement the standard **2.5m** in-line tail (**MT03-0304-069019**).
  - Providing a complete product offer with lengths of **2.5m, 5m and 10m.**
- 5m MT03-0304-069020 (REV wiring configuration) is a replace the obsolete 5m RB24-9104-069050 (Gen1 Wiring Configuration).
- 10m MT03-0304-069021 is a new SKU.
- In-line tails allow electrical works to be completed in advance of motors being received, enabling plug & play motor installation.
- Able to be cut shorter and wires stripped to desired length (by licenced electrician).



FUNCTIONAL BENEFITS		AESTHETIC FEATURES
• Provide greater convenience to the installer/electrician by being able to reach distances of 2.5m, 5m or 10m from the AC outlet or junction point.		• White colour
