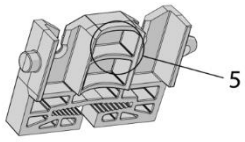
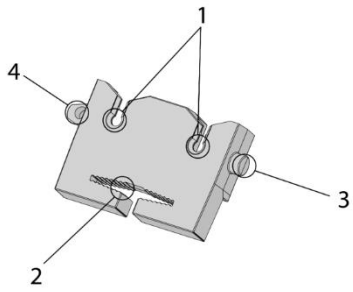
FEATURES & BENEFITS

INSTALLATION FEATURES

1) Clips onto plastic or metal beaded chain to maintain tension during install
2) Slips onto woven cord to maintain tension during install
3) Feature to unlock tension device to reduce the need for multiple tools
4) Key ring feature to ensure tool is not lost or misplaced before, during or after install
5) Area designed to rest perfectly on top of the tension device to allow for install prior to removing the tool





FUNCTIONAL BENEFITS

- Maintains tension to ensure proper install while also preventing the device from locking out
- Prevents the shade from being operated if not removed post-install
- Sized to not interfere with the tension device being installed flush on the wall/mounting bracket

AESTHETIC FEATURES

- Provided in distinct orange color to reduce the chance that the installer forgets to remove the device post-install
