FEATURES & BENEFITS

PRODUCTION / INSTALLATION FEATURES

- Member of the AR Series of architectural recessed pockets
- Simplified design provides versatility for use with Rollease Acmeda shading systems or others
- External dimensions are 7in x 9in x 10ft (tile lip is 0.75in)
- Available with and without a ceiling tile lip for drop-ceiling applications
- Competitive pricing
- Inventory is stocked in the US, reducing delivery times
- Easy installation – use self-tapping mounting screws to fasten to overhead supports directly through the top of the pocket (see Reference & Installation Guide)
- Aluminum composition retains structural integrity while allowing on-site cutting
- Extrusions are 10' in length to allow for easier transportation navigating job sites (stairwells, elevators, etc.)

FUNCTIONAL BENEFITS

- Simplified internal design to work easily with Rollease Acmeda shading systems as well as other systems.
- External dimensions are 7"x 9" for easier installation measurements
- Available with or without ceiling tile lip
- Maximum roll-up diameter:
 - Single shade: 6.5"
 - Dual shades: 4.3" each

AESTHETIC FEATURES

- Interior (exposed) of pocket is powder-coated White for a clean aesthetic look.
- Use with Bottom Closures for a clean look.
