FEATURES & BENEFITS

PRODUCTION / INSTALLATION FEATURES

- Member of the AR Series of architectural recessed pockets
- Simplified design provides versatility for use with Rollease Acmeda shading systems or others
- External dimensions are 6in x 6in x 10ft (tile lip is 0.75in)
- Available with and without a ceiling tile lip for drop-ceiling applications
- Competitive pricing
- Inventory is stocked in the US, reducing delivery times
- Easy installation – use self-tapping mounting screws to fasten to overhead supports directly through the top of the pocket (see Reference & Installation Guide)
- Aluminum composition retains structural integrity while allowing on-site cutting
- Extrusions are 10' in length to allow for easier transportation navigating job sites (stairwells, elevators, etc.)

Endplate

- Rotationally symmetric for ease of fabrication
- Compatible with standard hardware (#6 flat head screw, Catalog #: RCEPS100xx)
