FEATURES & BENEFITS

- Quick & easy solution to cover the In-Line Connector pass-through hole.
- Protect the electrical cable from the sharp edges of the drilled hole.
- Designed to fit a 22mm hole in Cassette Extrusion or Box 120 End Plates.
- Installer to slit grommet to attach to cable, prior to inserting into the hole.
- Excellent UV & weather resistant properties.
- Conveniently packaged in a re-sealable bag.
