

Commercial Range Overview

Question	Answer
May 6, 2020	
Can you talk about the difference between V-clutch and S-series manual roller blinds, which is better?	Can you clarify... do you mean the difference between Contract Series one (R and SL) and Contract Series 2 (S45 / S60)? Please provide this clarification and we will follow up. You can also email me at bill.coutz@rolleseeacmeda.com.
saw that you are using Somfy motors, does Rollease have its own motor series?	Yes, Rollease Acmeda has the Automate full range of motorization. We use some Somfy control parts for specific applications. Please visit our Automate section on the Rollease Acmeda Contract website www.rolleseeacmedacontract.com
. Can we have a presentation on roller fabrications?	Yes, we would be happy to accommodate a presentation for roller fabrication. Please contact me at bill.coutz@rolleseeacmeda.com.
Can you talk more about the switch system? How it works exactly?	Yes, I would be happy to send you more information on our proprietary Switch Fabric System. This system allows the fabric panel to be changed without removing the shading system from the brackets using a patented fabric spline attachment system. More information can be found here.
What are the advantages of grouping your products into Contract Series One & Two instead of just grouping them by their model names such as Skyline Series, R-Series, etc?	The Contract Series 1 and Contract Series 2 refers to the shading systems as a whole, rather than just system components (brackets, clutches, tubes, fabric etc.). We are developing these systems as a complete Commercial Shading System Solution.
On the Contract 2.0 fascia slide it looked like the P-95 cassette on the slide. Can you elaborate on the Contract 2.0 fascia style?	Contract Series 2 fascia is the P-95.
Are there any plans to add a chain guide option to the RB09 clutch?	No, there are currently no plans to add a chain guide.
Will the presentation be available as a PDF?	The presentation can be provided as a PDF by contacting me at bill.coutz@rolleseeacmeda.com or play it back on demand here.
I didn't understand the part that said: Fabric visual from inside, and outside. so Rollease has a Fabric which, for example, is white from the inside view and linen from the outside view?	The Visualizer provides a view from the interior of the window and the exterior of the window. Yes, our Textstyle line of fabrics includes our 3000HT fabrics that have a duplex weave with a lighter color facing to the exterior and a darker color facing the interior.
