FEATURES & BENEFITS

PRODUCTION / INSTALLATION FEATURES

- Slides onto the spring control AFTER pre-tensioning
- Aligns with slots in the spring control
- Wraps around the outside of the spring control to hold it in place
- Part is compatible with 45mm ESU spring controls

FUNCTIONAL BENEFITS

- Retains spring pre-tension for Easy Spring Ultra during transportation and installation
- Sustains shock/vibration during transit without coming loose
- Easily installed onto the ESU products during manufacturing
- Held securely in place until the product is installed and ready to use
- Easily removed by installer or end user without the use of a tool
- Orange color to help ensure product is noticed and removed prior to operation
- Shade is not operable until the pre-tensioning clip is removed
- Clip can be reused after removal
- Clip has verbiage (This Side Toward Bracket) to assist in proper orientation
- **45mm Spring Control** - compatible in open roll, CF90, P95, Square Cassette 110, and Fascia configurations
- **Compact Booster** – compatible in open roll and CF90 configurations
