

Popular Size Fills Out the Contract Line

- RollEase now offers 3, 4, 5 and 6 inch sizes.
- Available in Anodized and White.

Rounded edge on pocket eases installation.

Keep motor wires out of the way by inserting a D-ring into the top pocket groove and using a zip tie to secure the wires.

Features & Benefits

- Works with Single and Dual Skyline, R-Series, and Motorized roller shades.
- Accommodates up to a 4-3/4" max roll diameter.
- Bottom closure provides easy access for repairing or replacing shades.
- Curved edges for easy installation in unevenly shaped boxes.
- Blackout option using side and bottom channels.
- Bottom closure will also work with our 4" pocket, so less inventory when using both size pockets.
- Works with current 5" fascia bracket, so less inventory if using 5" Fascia System already.
- Works with R16, R24, SL15, SL20, SL30, Galaxy G200 and G400 and Spring Assist Clutches
- Pocket easily hides large shades in ceiling, or right to wall inside the pocket. Great for projection screens.
