

Flex Chainhold and Cordhold Tension Devices

The Flex Chainhold and Cordhold Tension Devices offer enhanced protection for both chain and cord operated roller shades. These premium devices are ideal for both residential and commercial environments, meeting ANSI/WCMA A100.1-2022 safety standards.

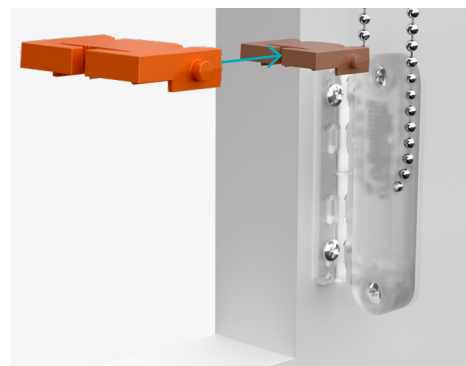

Color Range

Features

- Quick and easy snap-fit assembly
- Self-Adjust Tensioning accounts for chain and cord stretch over time
- Tension Lock is safely positioned at the back, requiring removal for re-tensioning and secure placement
- Two mounting points for increased stability and reliability
- 7 ft max continuous cord loop/13 ft max continuous chain loop
- Mounting brackets include face, floor and recess (adhesive) options
- Optional Flex Tension Spacer multi-use tool simplifies installation by maintaining tension and preventing device lockout

Flex Tension Spacer

Premium Safety Solutions

Flex Chainhold (frosted clear, white and black)

Flex Cordhold (frosted clear)

Versatile Mounting Options

Flex Chainhold and Cordhold
Face Fix Universal Bracket

The Flex Chainhold and Cordhold can be paired with their respective universal mounting brackets, offering a fast and easy face fix installation, ideal for residential environments.

Flex Chainhold Deluxe Bracket
Floor Fix

The deluxe bracket offers additional residential and commercial mounting options with a more rigid form factor on a floor mount for floor-to-ceiling installations.

Flex Chainhold Adhesive Bracket
Recess Fix

Perfect for commercial spaces where hardware is not permitted, the adhesive backed recess mount option provides a safe and dependable installation without the need for screws or drilling.
