CF90 CASSETTE/FASCIA | USA

Rollease Acmeda's CF90 Cassette/Fascia add on solution suite offers a comprehensive range of head box styles, controls and side channel options with improved performance functionality and aesthetics. A contemporary round or square headbox; available in fully enclosed or partial fascia, designed to house the Skyline and S45 Roller Shade chainwinder & motorized control systems. Utilizing versatile hardware, the new cassette suite can be matched with CF90 Edge side channels for improved energy efficiency.
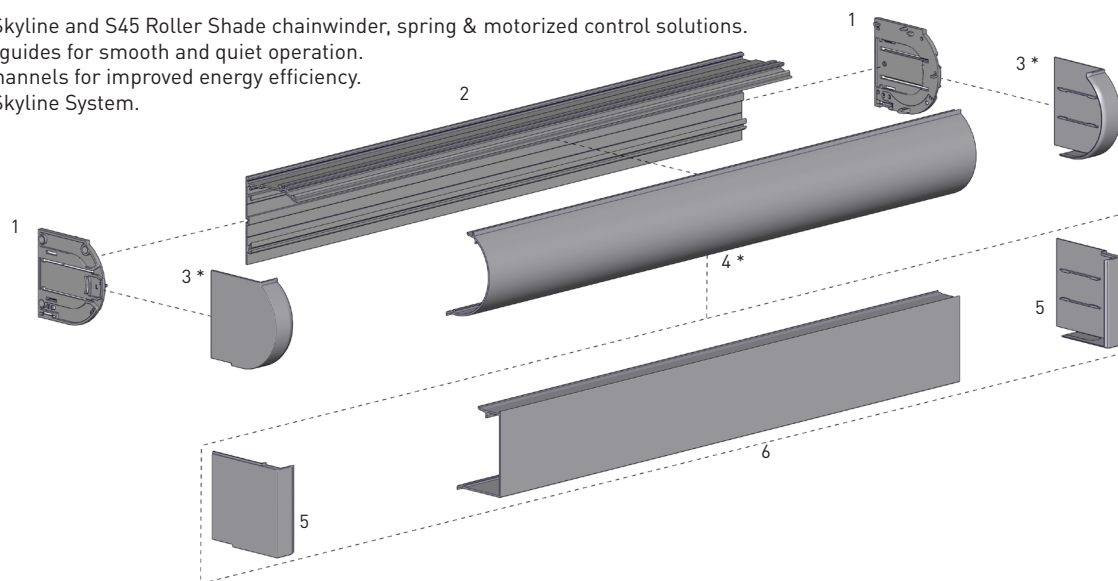

AESTHETICAL FEATURES

- Clean lines and complimentary aesthetics for various applications in round or square finish.
- Both styles available as a fascia or fully enclosed cassette.
- Wall and Ceiling mounting clip options available for installations with minimized light gap.
- End covers designed to overlap cassette front to conceal production blemishes.
- Color matched plastic end covers.

PRODUCTION & ASSEMBLY FEATURES

- Suite utilizes versatile hardware for reduced inventory.
- 2-piece CF90 Edge side channels for improved face/wall and recess/inside mount installation.

FUNCTIONAL BENEFITS

- Compatible with Skyline and S45 Roller Shade chainwinder, spring & motorized control solutions.
- Co-molded chain guides for smooth and quiet operation.
- CF90 Edge side channels for improved energy efficiency.
- Compatible with Skyline System.
