ROLLEASE ACMEDA

Wellbeing starts with Edge

Better light blocking. Better sleep. Better wellbeing.

Made to reduce light leakage, CF Edge delivers an improved room darkening experience for better sleep and everyday comfort.

Bedrooms | Nurseries | Home Cinemas | Shift Worker Spaces | Hotels

Why CF Edge

While traditional roller shades focus on blocking light using fabric, CF Edge goes a step further by addressing light that enters around the edges of the shade. By reducing perimeter light disturbance, it creates a darker environment designed to support quality sleep, relaxation and everyday wellbeing.

Improved Room Darkening

Reduces unwanted light around the edges of the shade.

Support Better Sleep

Create a darker environment designed for rest and recovery.

Flexible Operation

Manual or motorised options for effortless everyday use.

Automate Motorised Control

From the simplicity of a remote to the convenience of app, voice and smart home control, Automate makes controlling your shades effortless.
