

Ambient Edge

Commercial PVC Free

Ambient Edge

Ambient Edge is an attractive solar screen designed to bring textured style to modern interiors while delivering dependable light control. Available in 1% and 3%, it delivers consistent light filtration, glare reduction, and reduced solar heat gain to support HVAC efficiency. Its lighter-weight structure supports large and motorized shade applications. Cradle to Cradle Certified® and PVC-free, Ambient Edge reflects a thoughtful approach to material health and environmental responsibility.

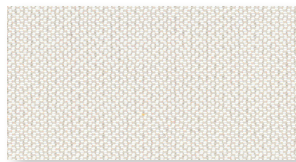

Features

- Available in 7 thoughtfully selected colors
- Textured woven construction with subtle dimension
- Available in 1% and 3% openness
- Reliable light filtration and glare reduction
- Lighter-weight structure for large and motorized shades
- Cradle to Cradle Certified® and PVC-free
