

S24 | M33 CURTAIN SYSTEM

FEATURES & BENEFITS

- Purpose-built for efficiency, the new S24 and M33 Curtain Systems deliver faster fabrication, convenient installation, and refined engineering across every component.
- A collection of innovations, including
 - Track-Lock brackets for rapid on-site adjustability.
 - Track Joiner for easy transportation and on-site assembly.
 - Drift Guard Pendant and Pendant Anchor to ensure fabric remains in place.
- Smooth, seamless operation of both manual and motorised systems.
- Full range of solutions for Pleat, S-Wave and S-Fold configurations.

KEY SYSTEM FEATURES

TRACK FAMILY DESIGN

S24

16mm
MANUAL ONLY

M33

16mm
MANUAL AND MOTORISED

Tracks are designed to the same height for uniform deductions across manual and motorised systems. Maximum track lengths are 12 m for manual systems and 8 m for motorised systems.

TRACK-LOCK BRACKETS

ALLOWS ADJUSTMENT

LOCKED

UNLOCKED

Designed to provide installation flexibility, lateral track adjustment and secure mounting.

TRACK JOINERS

S24

M33

Effortless on-site track connection. Seamless transition of pendants between joined sections. Ability to place bracket over joiners for extra support at joins.

DRIFT GUARD PENDANT FOR CURTAIN FABRIC

S24

M33

Prevents curtain fabric from creeping, ensuring a uniform stack-back and eliminating drift.
