

X-Weave

Performance Meets Versatility

TEXSTYLE

X-Weave Collection

Three Powerful
Performance Options

Designed for durability, performance, and sustainability, X-Weave fabrics provide flexible shading solutions for any space.

Engineered for both indoor and outdoor applications, the X-Weave collection offers superior solar control, long-lasting durability, and now with the addition of X-Weave Zero – complete privacy without sacrificing style. Plus it pairs perfectly with Rollease Acmeda's Zipscreen outdoor shades. Whether your project calls for unobstructed views or maximum seclusion, this versatile collection delivers.

X-Weave

5% & 10% Openness

Durable Solar Control with Uncompromised Views.

X-Weave is a heavy-duty, view-preserving fabric designed for exterior and interior applications. With its durable 2x2 weave and multiple openness options, it delivers reliable sun protection, ventilation, and lasting performance—ideal for spaces that require solar control without sacrificing visibility.

X-Weave Zero

0% Openness

Total Privacy Meets All-Weather Performance.

The newest innovation in Textstyle's X-Weave collection. X-Weave Zero offers complete privacy with 0% openness, combining full view-blocking capabilities with weather resistance and eco-friendly performance. It's the perfect solution for outdoor areas that demand discretion, durability, and sustainable design.

Features

- Heavy-Duty 2x2 Weave Construction
- Certified Eco-Friendly
- Fire Retardant & Commercial Grade
- Sized for Large Applications
- Water-Resistant & Long-Lasting
- Thermal Insulation
- Customizable up to 126" Wide

Applications

- Residential patios & pergolas
- Outdoor seating for cafés or restaurant
- Office windows with sun exposure
- Retail and commercial storefronts
- Boutique hotels and luxury properties
- Residential balconies and urban patios
- Commercial terraces and restaurants
- Outdoor meeting areas

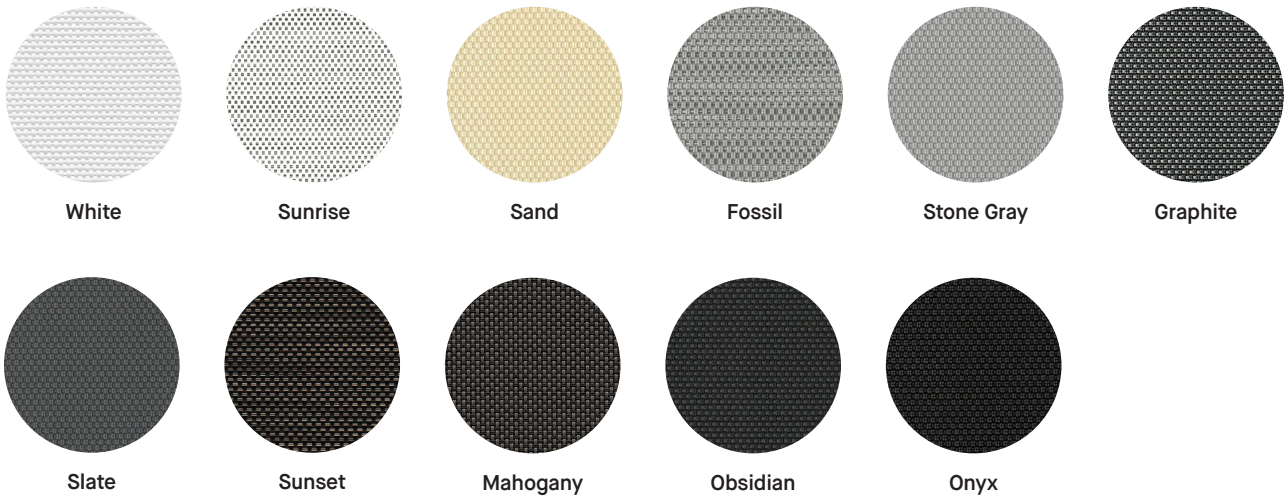

Enhance Your Outdoor Living Space

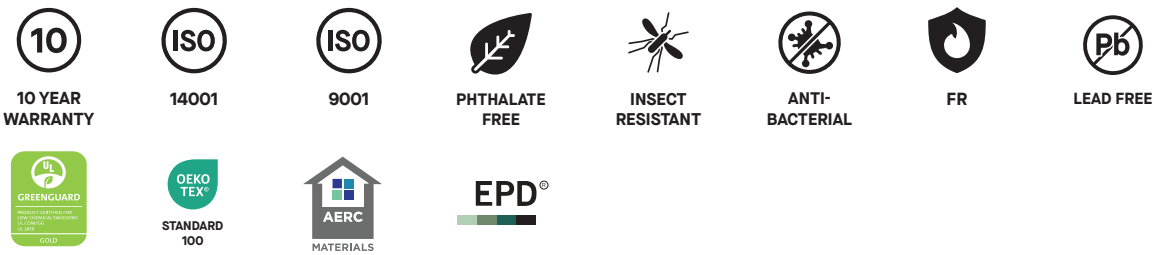

Used in exterior applications, X-Weave and X-Weave Zero act as a first line of defense against solar heat—minimizing heat gain before it reaches your space.

This reduces thermal load on buildings, improves outdoor comfort, and helps maintain more stable indoor temperatures, ultimately lowering energy use for cooling.

X-Weave Collection

	X-Weave 5%	X-Weave 10%	X-Weave Zero
